

Neuro Coating Solution

Catalog #: HNM009

Size: 20 ml

Storage: Store the medium at room temperature

Shelf Life: 12 Months

GENERAL INFORMATION

Neuro Coating Solution is a meticulously crafted blend of extracellular matrix (ECM) proteins formulated to coat plastic surfaces for the optimal cultivation of human neurons. This specially designed ECM protein cocktail is ideal for cultivating iPSC-derived neurons. The solution is impeccably tailored to facilitate the adherence of iPSC-derived neurons from various sources when cultivated with Neuromics growth medium.

Neuro Coating Solution offers a ready-to-use solution that can be conveniently stored at room temperature, presenting a compelling cost-effective alternative to widely-used products.

Product is for Research use only. Our products are not authorized for human use, in vitro diagnostic procedures, or for therapeutic procedures.

Key Features:

- Effortless application as a stock solution for seamless handling
- Versatility for both iPSC expansion and differentiation
- Robust support for the long-term health of iPSCs
- Validated for multiple sources of human iPSC culture
- Recommended for use with all iPSC-derived neural cell types and all growth mediums
- Complete provision of the essential ECM protein factors for neuro-cell attachment and maturation
- Sufficient quantity for coating an entire plate surfaces

FOR RESEARCH USE ONLY
